ABOUT US

Legamaster – Masters in Visualisation

The Legamaster label is part of the internationally renowned edding group, practising and maintaining the philosophy of its parent company.

It is a philosophy which ensures the high quality of all its products on the international stage, backed by local distribution and customer support.

The success of this approach is clearly visible: the Legamaster name stands for an even wider selection of products and better service. All under the same roof.

Take a look at our website www.legamaster.com for current promotions and product details.

We can meet your personal request!

Production

We have our own production sites in Europe and South-America.

- Production is semi automatic
- Standardised production processes ensure a consistent high quality

Customised solutions

Our Made-to-Measure production expertise means we can meet your own personal requests.

- Can't find what you are looking for in our catalogue? Talk to us!

Logistics

We ensure speedy deliveries within Europe.

- We are consistently optimising the flow of goods and raw materials
- Thanks to our modern warehouses complete with high stack shelving, we can ensure an organised, speedy turnaround: from the raw material through to the finished product

Welcome to the Legamaster catalogue!

My name is Leo, which stands for Legamaster for Education and Office.

I will show you around this catalogue and draw your attention to special features and elements of the Legamaster products.

I wish you a pleasant journey through the Legamaster catalogue.

Quality

Legamaster is a worldwide, high value premium brand in the field of visual communication. In order to meet the high standards required for both products and services, we have documented our practice and our quality objectives within a Quality Management System in accordance with **ISO 9001:2000**.

We have a standardised quality control system in place to keep a constant check on the entire Legamaster production processes. Legamaster's quality control follows internationally accepted standards and ensures the products work properly, are user friendly and meet safety requirements if required. A Production control and a Final Random Inspection covering visual and functional inspections are also carried out to ensure the constant high quality of Legamaster products. These quality controls use approved methods and tools for quality checks as well as procedures that are individually designed for certain products or product ranges.

In certain cases Legamaster's quality control uses internationally accepted technical institutes or experts for special tests and approval i.e. our Legaline DYNAMIC rail system which carries the safety label TÜV/GS.

Our raw materials are tested to the agreed specification and abilities before they leave our suppliers. They pass an additional inspection in our own quality control procedure before entering into further processes. Where we use component parts from other manufacturers, we commit them to providing us with the appropriate certificates concerning product safety and conformity with safety regulations if existing.

Guarantee

All Legamaster products are designed and manufactured to the highest quality standards. Legamaster products give a high performance level when used for the intended purpose, in accordance with operating instructions and in conjunction with original accessories or other products from the Legamaster range. All products are guaranteed during a period of 2 years from date of purchase in Europe.

Within the assortment we give specific guarantees for whiteboard and flipchart surfaces, indicated in the product information with logos.

CORPORATE SOCIAL RESPONSIBILITY

“IN THE INTEREST OF THE ENVIRONMENT – FOR THE WORLD OF TOMORROW.”

– strategy of edding AG –

As part of the edding group, Legamaster shares the strategic significance edding attaches to Corporate Social Responsibility (CSR). We endorse the edding vision regarding themes as human rights, child labor, discrimination and environment & sustainability. The Legamaster CSR principles are defined in our Code of Conduct.

The concept of CSR goes beyond the local impact of Legamaster's business to our extended supply chain. Legamaster recognizes its social position by imposing requirements on business partners and its own organization when it comes to the supply of Legamaster products and services.

We understand CSR as a continuous process of improvement and adaptation in an ever-changing environment. Our goal is to further develop CSR as a systematic and continuous process, to ensure meaningful changes in the key CSR areas: People, Planet & Profit.

Legamaster has started its CSR journey and will continue to implement initiatives to put its CSR commitment into action.

People

Guarantee health and safety at work

- Health and safety at work are key aspects of the Legamaster social policy.

Non-discrimination policy

- We reject any form of discrimination.

Respect human rights

- Legamaster respects human rights and expects business partners to share this vision.

Cooperation with partners that share the Legamaster values towards CSR

- We aim to do business with partners and suppliers that share our vision towards CSR related themes, we intend to bind them into our CSR processes and have them sign up to common values and sustainable business practices.

Profit

Taking care of our business and the environment

- Economics and efficiency
- Balancing economical targets with social & environmental targets

Consistent application of quality management system

- Legamaster is ISO 9001 certified

Planet

Energy saving policy

- Several energy-efficiency measures have been taken (installation of new energy-efficient heaters, optimizing thermostat settings, energy saving measures towards lighting, etc.).

Environment: key aspect in product development process

- Enamel steel boards are provided with environmentally friendly certified ceramic steel.
- Board frames are of 100% recyclable aluminium. All plastic board parts are 100% recyclable.
- The Triangle flipchart range comes with a 100% environmentally friendly packaging.
- Flipchart paper pads carry the Paper by Nature certificate.
- Magic-Chart is made out of environmentally friendly material and fully recyclable.
- Board- and presentation markers can be recycled, simply by using the refill ink!

Video-conferencing: in aid of the environment

- Our video-conferencing system makes numerous journeys between the Legamaster and edding head quarter unnecessary. In practice this leads to savings with regard to fuel consumption (car, airplane), reduced CO₂ emissions, less employee stress, time saving and reduced travel expenses.

Responsible printing-and copying policy

- We use 100% recycled paper bearing the Blue Angel environmental label. A double sided output policy and the use of digital technology has allowed us to reduce on paper usage. Digital copies are made instead of physical copies whenever possible. The replacement of outmoded individual printers with centralized multifunction units has improved power consumption. Ink cartridges are recycled.

Catalogue: naturally printed FSC certified paper

- This Legamaster catalogue is printed on FSC certified paper. A digital version of the catalogue can be consulted online, which can be considered a user- and environmentally friendly device.

Respect environmental regulations

- WEEE, REACH, RoHs and DMF.

INTERACTIVE SOLUTIONS

Legamaster offers a large variety of interactive solutions

Be it in a meeting room, a conference room, a classroom or an office, interactive products are increasingly commonplace. Legamaster offers a wide range of mobile and fixed interactive solutions to suit every purpose and any situation.

Interactive, digital, innovative: we set the benchmark

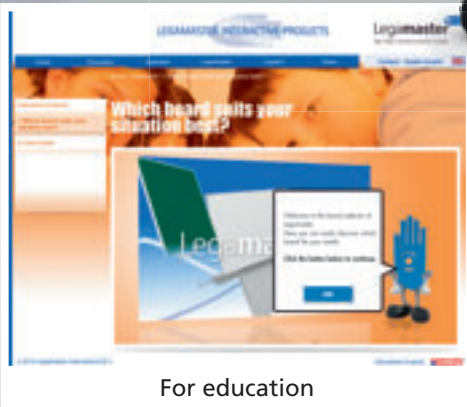

View the complete range of interactive products in our e-Catalogue and discover how to make your presentations or lessons more productive, interactive and professional.

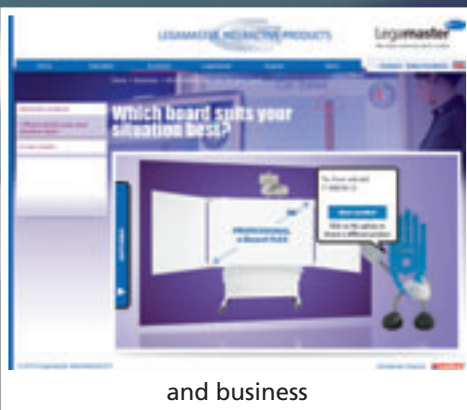

Need help in selecting the ideal interactive solution from Legamaster?

Our sales teams will be happy to advise you about our possibilities by giving you more information and answering your questions about our interactive products.

You can also reach us 24 hours a day at www.e-legamaster.com

For education

and business

Along with product information, you can also get acquainted with our interactive software. Work with an online software tool for a quick and easy insight into our user-friendly software and experience its look and feel.

We know that each situation is unique and that each user has a different interactive target. That's why we've included a board selector on our website. Answer a few simple questions in the board selector to see which interactive board suits your situation best.

As well as taking advantage of these tools, you can visit the website for free software updates, to download files from other users, view demonstration movies and enter competitions to win fabulous prizes!

PRESENTATION

The spoken word is not always fully heard with only part of the message being understood, but by stimulating more senses, your words will be remembered. Therefore, a well arranged office, conference or meeting room is a decisive factor in ensuring a successful meeting.

Legamaster offer a wide range of whiteboards, pinboards and flipcharts that will help strengthen your spoken word and visually communicate your information. For every situation we offer a solution.

3 kinds of whiteboard surface:

The most important feature of a whiteboard is the surface. The best surface for your situation depends on how you will use the whiteboard. Herewith you find an overview with the characteristics and qualities of every whiteboard surface:

1 Enamel steel

- Quality of this surface: long-term intensive use
- The highest quality whiteboard surface, guaranteed for 25 years when used in conjunction with Legamaster accessories
- Ink wipes off easily, even after a prolonged period of time
- The surface is scratch resistant, therefore ink from markers used by mistake (e.g. permanent markers) can also be removed without damaging the surface
- The surface is acid resistant and withstands cleaning even with the toughest detergents
- The enamel steel Legamaster uses for its whiteboards has a high quality, very hard baked enamel finish, it is fired at 800°C
- Magnetic: information and written notices can be attached with magnets
- The enamel boards of Legamaster are provided with environmentally friendly certified e³ ceramic steel

UNIVERSAL^{PLUS} and ECONOMY^{PLUS} have a different quality enamel surface. The surface has similar properties as mentioned above, but with a  quality level.

2 Lacquered steel

- Quality of this surface: long-term regular use
- The lacquered steel surface has a special coating, suitable for writing on with dry wipe alcohol-based board markers
- Magnetic: information and written notices can be attached with magnets

3 Melamine

- Quality of this surface: regular use
- Melamine resin surface: scratch and pressure resistant to a certain extend
- Suitable for writing on with dry wipe alcohol-based board markers
- Non-magnetic

Method of handling and mounting:

The advantage of...

1 ... a "light-weight" whiteboard construction

This makes the board easier to handle, especially for the bigger sizes, offering a solution for walls that cannot carry much weight.

Light weight boards can be recognized by this icon

2 ... a "concealed slot system"

A concealed slot system provides you convenience, stability and flexibility.

Convenience:

The board has four slots so you can hang the board on the wall by placing it on the two lower slots, before you attach the two upper slots. This enables you in many cases to hang the board on the wall without assistance of a second person.

Stability and flexibility:

The four slots used for mounting the board can be placed at any horizontal position on the board. Ideal with partition walls where the horizontal position of the possible holes in the wall are limited! Besides that, bigger sized boards get more stability from the well-positioned slots, compared to a mounting only at the corners.

3 ... a "corner wall mount"

The board is mounted through the four corners, simply by using the included screws and plugs. Finally, the corners are covered by corner caps. After mounting, the screws and plugs are no longer visible.

4 ... block magnet mounted

Block magnets are the perfect solution for hanging boards on metal-system walls and partitions.

The board can be mounted **without drilling holes**, and there are no tools needed to attach the board. The self adhesive, magnetic blocks have high holding power – the attached board will not move. Block magnets are for boards with a steel backing only.

Ref.no. 7-184000

On page 154 you find a whiteboard matrix, with all board details.

PRESENTATION

Glassboards PURE "optical white"

- Unique design with all the functionalities of a professional magnetic whiteboard
- Particularly well suited for intensive and long term use
- Glassboard of 5 mm "optical white" safety glass. The surface is hardened glass where the normal (green) glass colour nuances have been eliminated in a special process, leaving a clear, white glass
- Anodised aluminium frame that runs fully over top and bottom of the board
- Can be written on with whiteboard markers and dry wipe-able
- Magnetic board surface, notes can be stuck to the board with special glassboard magnets
- Excellent writing capacities because of the smooth surface
- Stain and scratch resistant board surface
- Easy to clean, resistant to detergents
- Comes complete with fixing kit
- Please note: screws are not included in the delivery: each wall requires wall-specific screws for the particular on-site situation

Height x Width	Weight	Ref.no.
104 x 117.5 cm	16 kg	7-100754
104 x 147.5 cm	20 kg	7-100763
104 x 197.5 cm	26 kg	7-100764

- Wall mounting construction supports the board approximately 30 mm off the wall, creating the impression of floating
- Special nicely designed glassboard magnets are strongly advised; as normal whiteboard magnets do not function properly on the glassboard surface!
- Write on / dry wipe surface is guaranteed for 25 years when used in combination with Legamaster accessories

Recommended accessories:
 Marker tray in plexiglass 330 mm
 Ref.no. 7-126700
 Extra strong magnets 30 mm,
 packed per 5 pieces
 Ref.no. 7-181600

DYNAMIC whiteboards

- Design aluminium frame with light grey plastic corner caps
- High quality, scratch resistant enamel surface
- Particularly well suited for long-term use
- Write on / dry wipe surface is guaranteed for 25 years when used in combination with Legamaster accessories
- Weight: approx. 9 kg/m²
- Ready to use: comes complete with fixing kit, marker tray, 4 board markers and eraser

Height x Width	Ref.no.
60 x 90 cm	7-100943
90 x 120 cm	7-100954
90 x 180 cm	7-100956
100 x 150 cm	7-100963
100 x 200 cm	7-100964
120 x 180 cm	7-100974

Recommended accessories:

The DYNAMIC whiteboard eraser which fits into the pivotal marker tray can also be ordered separately
Ref.no. 7-120900

Block magnets
Ref.no. 7-184000

Block magnets are the perfect solution for hanging boards on metal-system walls and partitions.

- Specially constructed wall mount provides a stylish "three dimensional" look. The board "floats" in front of the wall

- Pivotal marker tray can be stored behind the board at the left or right side

PRESENTATION

IMAGINE COLOUR whiteboards

- A distinctive whiteboard with clear lines and exquisite attention to detail by using a subtle colour element in the frame
- Available standard with classic blue label strip, but with the option of 8 additional exchangeable solid and transparent colours
- The IMAGINE whiteboard is part of the IMAGINE product family. The IMAGINE family also offers a flipchart
- High quality, scratch resistant enamel board surface
- Anodised aluminium frame with a coloured label and light grey plastic corner caps
- Easy wall mounting with concealed slot system
- Modern stylish marker tray ("swoosh") including matching colour label, to be ordered separately
- Write on / dry wipe surface is guaranteed for 25 years when used in combination with Legamaster accessories
- Weight: approx. 13 kg/m²
- Comes complete with classic blue label strip, integrated minimalistic marker tray, fixing kit and TZ 14 retractable marker

Height x Width	Ref.no.
70 x 120 cm	7-101610
90 x 160 cm	7-101611
120 x 210 cm	7-101612

Personalise your IMAGINE whiteboard with one of the 8 colour labels!

IMAGINE COLOUR label and swoosh

How to select a coloured label strip and a swoosh for your IMAGINE whiteboard:

STEP 1

Look for your IMAGINE whiteboard in the overview

STEP 2

Select your required colour and decide if you want to change the colour of the label strip, or if you prefer a label strip and a swoosh in a specific colour

STEP 3

Please order your distinctive colour choice

Lenght label + swoosh	Ref.no.	
120 cm	7-1258xx	Just add the right
160 cm	7-1259xx	colour code to Ref.no.
210 cm	7-1260xx	

On request it is possible to print the label in your corporate identity with your own logo.

- All IMAGINE COLOUR family members, standard in classic blue, have the possibility to easily exchange the colour labels and the "swoosh" (modern stylish marker tray)
- Colours: ultra black, chili red, classic blue, fresh lime (green), bright orange, lovely lilac, arctic blue and ocean blue

Set of 8 different whiteboard colour labels assorted 120 cm, to fit whiteboards with width 120 cm

Set of labels (without swoosh)
Ref.no. 7-126600

Set of 8 different whiteboard colour labels assorted 210 cm, to fit whiteboards with width 160 cm and 210 cm

Set of labels (without swoosh)
Ref.no. 7-126601

Colour label

- Attractive coloured label strip; imprinted with the IMAGINE logo
- Label strip along the bottom side of the board and can easily be replaced by a different colour label
- This to complement every interior and corporate identity
- A set of 8 assorted colour labels can be ordered separately. The length of the label can be easily cut to the correct size

Swooshes

- Designer "swoosh" which serves as a marker tray
- Swooshes can be clicked onto the existing minimalistic aluminium marker tray along the bottom side of the board
- Please note that swooshes need to be ordered separately; swooshes are always delivered with a free colour label matching its colour and size!

- Weight 2.4 kg
- H 161 x W 97 cm
- Board not included. Please order separately. Boards assembled on the stands have no marker tray.

Ref.no. 7-172300

PRESENTATION

What to consider when buying a flipchart:

1 Base of the flipchart

Would you like a flipchart only for one room?

A tripod will do fine, especially in a corner of the room. If you would like to have a flipchart which can easily be moved, for example to another meeting room, consider using a mobile version!

Limited space for a flipchart?

Look for a mobile flipchart and see the limited floor space these flipcharts require. Easily move your flipchart to another meeting room!

2 Writing surface of your flipchart

How often do you want to use the flipchart?

In case of frequent use we advise to consider the following ergonomic aspects:

- A height adjustable version
- A curved writing surface, which gives your hand support when writing

Would you like to use the flipchart as a whiteboard as well?

Especially the flipcharts with an enamel steel writing surface guarantee you a high quality whiteboard surface.

Would you like to attach cards or other things magnetically to the board?

Look for the feature magnetic board surface.

3 Extra features

Each flipchart has its own design with its own extra features. Take a careful look and make your choice:

- Extendable arms, to hang one or two sheets of paper beside the writing surface. This enlarges the space for information that you can give your audience by two or three times!
- A screw-on pad holder, or preferably, a pad holder which unfolds to hang flipchart pads up in seconds.
- Flexibility to suit all major standard pad formats.

- A height adjustable version

- A pad holder which unfolds to hang flipchart pads up in seconds

- Flexibility to suit all major standard pad formats

- Curved surface
- Extendable side arm

ORION flipchart

- Can also be used as a whiteboard because of its high quality, scratch resistant enamel board surface
- Exceptional, ergonomic design
- Two arms fold out (complete with paper clamps) providing more presentation space for your notes
- Flipchart paper pad is fixed between pad holder and the fold-up marker tray
- Adjustable to suit all major standard paper formats up to 100 x 65 cm
- Markers kept safe in integrated folding marker tray
- Gas-lift for easy height adjustment up to 30 cm
- Round base with 5 castors for mobility (1 lockable)
- Base takes up only 75 cm/diameter floor space
- Plastic parts light grey
- Board height adjustment:
88 to 118 cm (lower edge)
188 to 218 cm (top edge)
- Maximum height 218 cm
- Board size: H 102 x W 67 cm
- Write on / dry wipe surface is guaranteed for 25 years when used in combination with Legamaster accessories
- Comes complete with flipchart paper pad and presentation marker

- Write on / dry wipe surface is guaranteed for 25 years when used in combination with Legamaster accessories
- Comes complete with flipchart paper pad and presentation marker

Ref.no. 7-152000

Flipcharts Triangle

A triangle is the simplest geometric figure and is favoured in structures.

The triangle has the advantage that it will not change shape when the lengths of the sides are fixed. Because it is not easily deformed, the triangle is an extremely popular building shape. A famous example is the Eiffel tower.

The triangle shape is at the basis of the newly designed flipchart range. You will find it in the base of the tripods, as well as in the many elements of the construction.

The Triangle range of flipcharts offers stability, solidity and an attractive design at the same time!

PRESENTATION

PROFESSIONAL / PREMIUM flipchart Triangle mobile

- Attractive high-end design flipchart
- Solid and robust construction, including robust board side profiles for easy handling and a firm (ergonomic) hold
- Magnetic, notes can be stuck to the board with magnets
- Writeable/dry-wipeable board surface, suitable for writing on with board markers
- Solid 5-star-base for stability, including 2 lockable castors
- Unique 5-star foot design; foot parts are covered with stylish perforated steel foot cover plates

PRESENTATION

Magic-Chart

- Ready to use solution for every spontaneous or planned meeting
- Creates an instant writing surface, even when a whiteboard or flipchart are not available
- Electrostatic foil easily sticks to almost any surface (wood, concrete, glass, wallpaper)
- Long lasting electrostatic product properties (up to 5 years!)
- No adhesive required, leaves no traces
- Sheets can be repositioned easily
- Presentation cards and notices will stick without help simply by smoothing them onto the foil
- Environmentally friendly: fully recyclable
- 25 sheets
- Roll width 60 cm, perforations every 80 cm
- Including marker

Ready-to-use large writing sheets for any meeting, spontaneous or planned.

Magic-Chart whiteboard

- Fully white Magic-Chart foil (whiteboard effect)
- Glossy look
- Can be written on using Legamaster board markers and edding permanent markers
- Permanent markers guarantee a more intensive ink colour (longer drying time)
- Erasable when used in combination with Legamaster board markers
- Environmentally friendly: one sheet can be used up to 10 times!

Magic-Chart flipchart

- Fully gridded Magic-Chart foil (flipchart effect)
- Grid size 2.5 x 2.5 cm
- Can be written on using Legamaster board markers and edding permanent markers

Magic-Chart blackboard

- Fully black Magic-Chart foil (black chalkboard effect)
- Can be used:
 - to black out/darken windows
 - to darken a room in case bright sun light makes it difficult to give a beamer presentation
 - to create a chalk board effect; e.g. present a restaurant menu in an original way
- Can be written on using:
 - edding neon board markers
 - edding paint markers
- Highest electrostatic properties

	Magic-Chart blackboard	-	7-159200
	Magic-Chart flipchart	2.5 x 2.5 cm	7-159000

Produced in an environmentally friendly way and completely recyclable

MODERATION

Conducting successful meetings and brainstorming sessions is an art in itself and, unfortunately, in many instances the participant's involvement is often passive. The Legamaster workshop method offers a solution that allows all participants to take an active part in the discussion.

The moderation products offered by Legamaster make communication clear and creative. With moderation boards, cases and accessories, it is easy to create an interesting environment for participants.

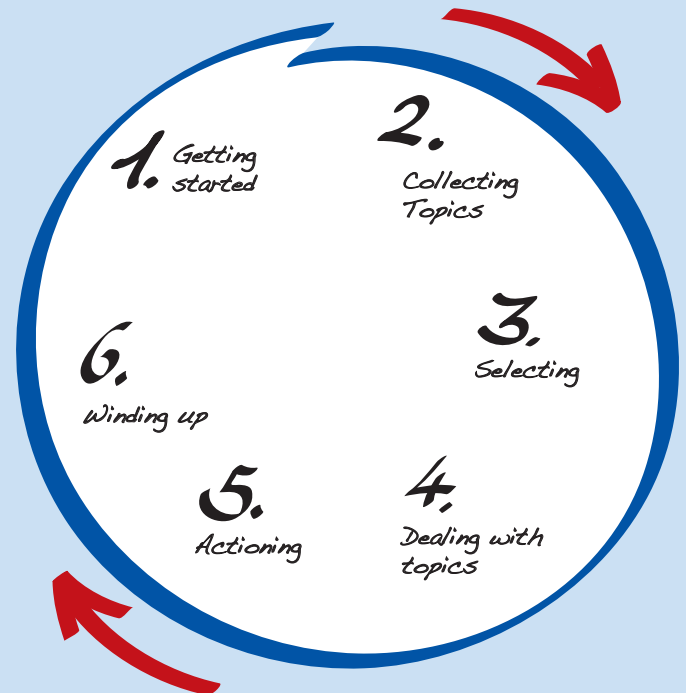

Moderation involves the structuring of a group meeting, be it a team meeting, management workshop or large group. This requires structure and the right tools.

Moderation structure

A business meeting can usually be divided into a "six-step moderation cycle". This produces a simple, logical sequence of actions that is easy for all participants to understand.

- 1 Getting started**
The first thing to do is to inform participants about the purpose of the meeting.
- 2 Collecting Topics**
The point of brainstorming is to identify the topics to be discussed.
- 3 Selecting**
During the third step, you select the order in which the various topics are to be dealt with.
- 4 Dealing with topics**
The topics are discussed and dealt with in depth during this stage.
- 5 Actioning**
Once the topics have been dealt with, you have to agree who is to action which topic, by when and to what end.
- 6 Winding up**
At the end of the meeting, participants are asked whether they felt the meeting was constructive or whether they have any suggestions as to how things could / should / must be done next time.

Josef W. Seifert,
Moderator & Moderation trainer,
author of successful books on moderation,
managing partner of the consultancy and
training company MODERATIO®

Plan first, then act!

If you are wondering whether to hold an improvised meeting or prepare for it in advance, you may find the first option appealing, but the second is better!

The trick of successful business moderation is to approach a moderation exercise as a mini project, this will involve dividing the overall work process into sensible chunks (units).

So at the very least, you should draw up a brief MODERATION plan which sets out the objective for each of the six moderation steps, and the procedure or method you will be using to moderate or guide the group during each particular stage. You can then work consistently with the group using your plan.

"A moderation process will invariably involve the use of Legamaster products! This is because professional performance can only be achieved with professional equipment; every professional knows this – from the tradesman to the musician, from the project leader to the moderator/facilitator!"

MODERATION

PROFESSIONAL Travel moderation board

- Space-saving unique folding design moderation board
- Double-sided felt covering
- Folds into 4 sections, the perfect solution for flexibility and easy transportation
- Light-weight design for easy mobility
- Easy to set up by one person

Ref.no. 7-225000

Moderation paper

- 80 gsm
- Sheet size: 116 x 140 cm
- Brown, subtly lined to aid writing or white, chlorine-free bleached paper
- 100 sheet pack

Colour	Ref.no.
	Brown 7-240100
	White 7-240300

MODERATION

Magic-Chart

- Ready to use solution for every spontaneous or planned meeting
- Creates an instant writing surface, even when a whiteboard or flipchart are not available
- Electrostatic foil easily sticks to almost any surface (wood, concrete, glass, wallpaper)
- Long lasting electrostatic product properties (up to 5 years!)
- No adhesive required, leaves no traces
- Sheets can be repositioned easily
- Presentation cards and notices will stick without help simply by smoothing them onto the foil
- Environmentally friendly: fully recyclable
- 25 sheets
- Roll width 60 cm, perforations every 80 cm
- Including marker

Magic-Chart	Grid size	Ref.no.
Magic-Chart whiteboard	–	7-159100
Magic-Chart blackboard	–	7-159200
Magic-Chart flipchart	2.5 x 2.5 cm	7-159000

Magic-Chart whiteboard

- Fully white Magic-Chart foil (whiteboard effect)
- Glossy look
- Can be written on using Legamaster board markers and edding permanent markers
- Permanent markers guarantee a more intensive ink colour (longer drying time)
- Erasable when used in combination with Legamaster board markers
- Environmentally friendly: one sheet can be used up to 10 times!

Produced in an environmentally friendly way and completely recyclable

Magic-Chart flipchart

- Fully gridded Magic-Chart foil (flipchart effect)
- Grid size 2.5 x 2.5 cm
- Can be written on using Legamaster board markers and edding permanent markers

Magic-Chart blackboard

- Fully black Magic-Chart foil (black chalkboard effect)
- Can be used:
 - to black out/darken windows
 - to darken a room in case bright sun light makes it difficult to give a beamer presentation
 - to create a chalk board effect; e.g. present a restaurant menu in an original way
- Can be written on using:
 - edding neon board markers
 - edding paint markers
- Highest electrostatic properties

Ready-to-use large writing sheets for any meeting, spontaneous or planned.

Moderation cards

Mini clouds:
emphasize comments and statements

Clouds:
for bold display of the main session theme; give visual prominence to results

Rectangles:
for statements from the audience: particularly good for question and answer sessions

Circles 9.5 cm diam.:
For numbering comments or placing them in order

Circles 14 and 19 cm diam.:
Emphasise specific statements or ideas, name groups or related areas

Ovals:
Describe emotional statements / characterise clusters; can be used as alternative to rectangles

Strips:
For writing questions and headings

Lozenges:
For structures and relationships

Hexagons:
For structures and relationships

King-size hexagons:
Emphasize main points within a structure

PRESENTATION AND DISPLAY

Legamaster wall rail systems are designed to suit any situation, purpose and location. They are extremely flexible in design offering a wide range of products to help you create your ideal combination.

Whiteboards, pinboards, flipcharts and projection screens are just examples of the products which are suitable for the rail systems. The elements glide smoothly behind and in front of each other enabling you to exchange the presentation elements.

Choose your ideal railsystem:

Legaline DYNAMIC and Legaline PROFESSIONAL rail systems are best suited to team work or as a multi-talented organiser for your own office.

Legamaster will help you find the best rail system to suit your particular needs.

- Weight: approx. 13.5 kg
- Comes complete with flipchart pad and suspension brackets for the upper rail channel
- Write on / dry wipe surface is guaranteed for 25 years when used in combination with Legamaster accessories

Ref.no. 7-304300

PRESENTATION AND DISPLAY

Book shelf unit

Legaline PROFESSIONAL

- Adjustable shelf positions
- White (RAL 9016) powder-coated aluminium frame
- Extremely multi-purpose
- Maximum load for the total product: 30 kg
- Comes complete with suspension brackets for upper rail channel
- External dimensions:
H 108 cm (113.5 cm incl. suspension brackets) x W 85 cm
- Approx. weight: 20.5 kg
- Book shelf unit with three 30 x 80 cm shelves

Ref.no. 7-305100

TV-Video shelf unit

Legaline PROFESSIONAL

- Adjustable shelf positions
- White (RAL 9016) powder-coated aluminium frame
- Maximum load for the total product: 30 kg
- Comes complete with suspension brackets for upper rail channel
- External dimensions:
H 108 cm (113.5 cm incl. suspension brackets) x W 85 cm
- Approx. weight: 20.5 kg
- TV/video shelf unit with two 50 x 80 cm shelves

Ref.no. 7-305300

Literature rack Legaline PROFESSIONAL

- Ideal for displaying magazines or catalogues
- Literature rack with 8 pockets
- Crystal clear acrylic
- Suitable for standard A4 formats
- White (RAL 9016) powder-coated aluminium frame
- Comes complete with suspension brackets for upper rail channel
- 115 cm (121 cm incl. suspension brackets) x H 50 x D 14 cm
- Weight: 8 kg
- Pocket dimensions: W 22 x D 3.3 x H 25 cm

Ref.no. 7-305500

Projection screen Legaline PROFESSIONAL

- Specially for use on the rail system
- Special mechanism allowing screen to be fixed at any angle between 0 and 30°
- Maximum viewing angle 50°
- White (RAL 9016) powder-coated aluminium frame
- Comes complete with suspension brackets for upper rail channel and wall spacers

Height x Width	Weight	Ref.no.
150 x 150 cm	14 kg	7-306451
180 x 180 cm	16 kg	7-306453

- Space required above rail:
Ref.no. 7-306451: 50 cm
Ref.no. 7-306453: 80 cm

PROJECTION

Each situation is unique and the choice for the right projection screen is influenced by factors such as ambient light, light output, projector set-up and the presentation room. Legamaster offers a wide range of projection screens. A solution for every situation.

See the difference

Choosing the right projection screen is extremely important!

1 Black border

The black border increases the perceived clarity of the projected image

2 Projection screen

With a projection screen, the visual information will be shown without any quality loss. The projected light will be reflected towards the audience.

Projection on a wall

Projection on a projection screen

Screen qualities

There are many projection screens on the market with varying quality levels.

To make the selection process easier, Legamaster projection screen names give a clear indication on the quality level of the screen.

For intensive use

Top quality screens which meet the highest requirements, for the demanding user.

PROFESSIONAL projection screens

For regular use

Excellent projection screens with a good price / quality ratio.

PREMIUM projection screens

For occasional use

A good alternative for price oriented buyers.

ECONOMY projection screens

PROJECTION

The 4 steps

The next 4 steps provide you with the most important selection criteria which will help you to choose the right projection screen, while taking your specific circumstances and needs into account.

1 Screen type

There are three projection screen types:

- electrically operated projection screen
- manually operated projection screen
- mobile projection screen

A mobile (portable) projection screen is the best choice if a variety of locations are used for projection. However, if the projection room is permanent, then you may choose from an electrically- or manually operated screen. Depending on your personal preference and budget.

For special projection solutions, such as interactive projection, see page 80.

2 Aspect ratio

Depending on the projection method, the projected image will have a certain width / height ratio.

For the best results, we advise to select a projection screen with the same ratio as that of the projected image.

The following aspect ratios are distinguished:

3 Screen dimensions

The dimensions and hanging position of the projection screen can be determined by following this guideline:

Dimensions of the projection screen

Height (X) of the projection screen = 1/6 of the distance from the projection screen to the last row of chairs.

width of the projection screen =

width = height

4:3 width = 1.33 x height

16:9 width = 1.78 x height

16:10 width = 1.60 x height

Optimum viewing height

The most optimum distance from the bottom of the projection screen to the floor is:

In case of:

Professional use = approximately 125 cm

Home Cinema use = minimum 60-90 cm

Minimum viewing distance

The optimum perception of the projected image is determined by:

Distance to the first (D) row of audience = diagonal (D) dimension of the screen

4

Choosing the right screen fabric

Please choose from the screen fabrics as described below. Please take into account primarily the light output of the projector, the ambient light, the position of the projector (on the ceiling or placed at seat height) and the layout of the presentation room.

Wide viewing angle 100°
Matte white

Legamaster projection screen fabrics:

A diffusion projection screen surface spreads the light evenly and has a wide viewing angle.

Within the diffusion screen fabrics we offer the following screen fabric types:

- matte white
- matte white high gain

Suitable choice for projection settings that require a wide viewing angle (max. 50° L/R) or in which a projector with a high light output is used. A diffusion screen fabric can also be used in situations in which the projector is placed at seat height or where the projector is mounted on the ceiling.

PROFESSIONAL and PREMIUM projection screens: screen fabrics are tested for fire resistance and meet the norm B2.

Screen fabric	Gain	Viewing angle L/R	Fire safety
Matte white High Gain	2.2	70°	B2
Matte white	1.0	120°	B2

At the screen pages you can find the screen fabric per screen.

Easy Install

Flexible installation with Easy Install

The variable hanging system ensures that the Legamaster projection screens are easy to install.*

Easy Install results in major time savings and this naturally also results in a reduction in the installation costs.

Easy Install is an absolute improvement in the ease of installation for the professional market. Thanks to the plug & play installation, consumers can easily install an electrical projection screen in their own homes.

1

Simplicity and ease

The principle behind Easy Install is simple.

First two brackets are mounted to the wall or ceiling, and then the screen can be easily slid into the brackets and secured with screws.

Even the largest screens can be quickly and easily installed using this system.

2

Flexible choice for drill holes

Thanks to Easy Install, the screen width no longer determines the position of the points of suspension. The mounting brackets may be mounted to the wall or ceiling within 50 cm of the two ends of the screen. It is also possible to make corrections either to the left or right after hanging.

This means the end of fixed drilling measurements. A Legamaster projection screen is easy to install and always hangs perfectly in no time.

3

Plug & play accessories

With the plug & play accessories, everyone can easily install an electrical projection screen:

connect the plug to the screen, conceal the wiring neatly in the end caps, and the projection screen is ready to use.

PROJECTION

PROFESSIONAL projection board FLEX

For the PROFESSIONAL projection board FLEX the technology of the Legamaster e-Boards has been used to design a high quality, scratch resistant projection surface with good image and contrast quality. The projection board FLEX is perfect for projection with an a/v projector. Without leaving a "hotspot" on the board.

At the same time, the boards can be used as a wet-wipeable whiteboard and are also suitable for use in combination with eBeam Edge or eBeam Engage.

The PROFESSIONAL projection board FLEX offers much flexibility in creating a solution that fits your demand for projection: Everyone can assemble his or her own ideal board by choosing:

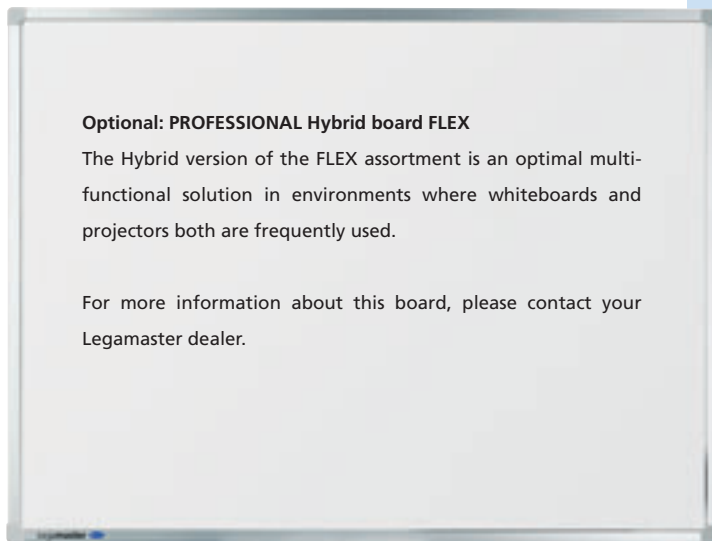

- 4:3 or 16:10 widescreen format
- Board size
- With or without side panels (standard option for 77" or 88" boards)
- Several options for the surface of the side panels
- Long or short marker tray
- Height adjustable or not
- Wall mount, mobile stand or on columns

Optional: PROFESSIONAL Hybrid board FLEX

The Hybrid version of the FLEX assortment is an optimal multi-functional solution in environments where whiteboards and projectors both are frequently used.

For more information about this board, please contact your Legamaster dealer.

- Suitable for use in combination with eBeam Edge and the electronic pen (stylus)

- High quality, scratch resistant enamel projection surface
- Perfect for projection with a/v projector
- Good image and contrast quality:
No "hotspot" visible when projecting with average a/v projector
- Aluminum frame with light grey plastic corner caps
- Baked enamel finish (fired at 800°C), which results in a very durable surface
- Easy wall mounting with concealed slot system
- Particularly well suited for long term use
- Long or short marker tray
- Projection surface is guaranteed for 25 years when used in conjunction with the interactive stylus

Please note that the PROFESSIONAL projection board FLEX can be used as a whiteboard but is wet-wipeable and not dry-wipeable.

PROFESSIONAL electrical built-in RF projection screen

- Attractive and durable built-in solution. Building in a projection screen efficiently was never so easy
- Includes built-in radio frequency receiver, making it possible to operate the screen using the remote control supplied
- Closure formed by the projection screen surface slat bar ensures that ceiling mounting is inconspicuous
- Easy Serviceability System: once installed, the motor and screen surface remain accessible making adjustments and carrying out maintenance possible. The bottom panel and case remain connected to each other
- Easy to build into existing non-modular ceilings
- Easy installation with optional wall and ceiling brackets, prewired for electrical installation

- Concealed-in-ceiling projection screen
- Matte white screen fabric
- Screen fabric is flame retardant
- Black border increases perceived clarity of the projected image
- Quiet, fast motor with a 5-year guarantee
- Formats: video (4:3) and wide (16:10)

- Case colour is white; RAL 9016
- Sturdy construction
- Projection screen is pre-assembled
- Quality marks: CE, TÜV/GS

Accessories for projection screens

Ceiling brackets

For installation of a projection screen in a high room or under a recessed ceiling, special ceiling brackets are available. The ceiling brackets measure 100 cm (length) but can be shortened as needed.

Ceiling brackets for PROFESSIONAL and PREMIUM – M6 100 cm

Suitable for:

- PREMIUM (RF) electrical
- PROFESSIONAL (CSR) manual

Ceiling brackets	Length	Ref.no.
PROFESSIONAL and PREMIUM	100 cm	7-554500

Ceiling brackets for PROFESSIONAL – M8 100 cm

Suitable for:

- PROFESSIONAL RF electrical (built-in)

Ceiling brackets	Length	Ref.no.
PROFESSIONAL	100 cm	7-555200

Wall brackets

In certain cases, it might be necessary to move the projection screen away from the wall.

For example:

if a painting is hanging where the projection screen needs to be.

For example:

if for overhead projection the projection screen must be placed on a tiltable angle to prevent distortion of the image.

Wall brackets	Length	Ref.no.
PROFESSIONAL and PREMIUM	75 cm	7-555100
PROFESSIONAL and PREMIUM	30 cm	7-545400

Other accessories available on request.

Laser pointer LX 3

Laserpointer	Length	Laser class	Weight incl. batteries	Ref.no.
LX 3 green	15 cm	2	71 g	7-575600

The eye is 20 times more sensitive to a green colour than a red colour. Therefore a green laser pointer is particularly suitable for use in a daylight situation or on a brightly lit screen. The green dot is very bright and piercing and has a very long range.
For use in an office, classroom or conference environment.

- Best laser pointer tool for high brightness screens and big display presentations
- Laser pointer with a green dot, Ø 1.4 cm
- By pushing the button the green laser dot is activated
- Green laser beam; high visibility (twenty times higher than a red laser beam)
- Silver metal casing
- Practical pen-clip
- Soft structured grip zone
- Range: 200 m
- Laser class 2, power < 1 mW
- CE-approved
- Certified to standard EN 60825-1
- Comes complete with case, 2 AAA batteries and a user manual

Laser pointer LX 1, LX 2 and LX 4

Laserpointer	Length	Laser class	Weight incl. batteries	Ref.no.
LX 1	10 cm	2	60 g	7-575300
LX 2	14 cm	2	56 g	7-575500
LX 4	14 cm	2	54 g	7-575700

- Power: <1 mW
- Red laser dot, diameter approx. 4 mm
- Certified to standard EN 60825-1
- Range: 100 m
- CE tested
- Comes complete with case and batteries

Laserpointer LX 1:

- Black metal casing
- Green on / off button
- Handy size
- Battery: (N) battery SUM5R1

Laserpointer LX 2:

- Silver metal casing
- Red on / off button
- Sturdy
- Battery: (AAA) battery SUM4R03

Laserpointer LX 4:

- Silver metal casing
- Red on / off button
- Red laser dot: can be turned into an arrow by twisting the laser head
- Battery: (AAA) battery SUM4R03

PLANNING

Managing is a question of looking ahead. Once you have determined your strategy, you must plan carefully and realistically. It is then a matter of keeping all those involved thoroughly informed about the objectives.

To realise your goals it is important to continuously visualise your planning in an up-to-date way, offering insight through overview.

Choose your ideal planner

STEP 1

Answer these three questions:

For what length of time do I need to plan?

How many people / objects / events do I want to display?

How much wall space do I have at my disposal?

STEP 2

Find the best planner to suit your needs:

Match your answers to the three questions with the table below, and place a cross in the appropriate right-hand box. Deciding which planner to buy should then be easy.

Division	Capacity	Size H x W	Description	Ref.no.	Page

PLANNING

Slide index system

Whether you wish to show comprehensive staffing information or detailed room bookings (e.g. for conference rooms), the slide index system will bring order to the matter – and that's guaranteed! The system's modules are available in 3 different lengths and two widths and can be used in combination with each other, all come complete with their own device for attachment. One module can hold up to 60 cards providing a clear, colourful and structured overview.

If something changes, there's no problem: simply remove the card and holder from the rail and watch all the remaining cards simply slide down into place and fill the gap you have just created; new cards can also be added in the same way.

- Works on the basis of the "follow my leader principle" – order is maintained even if individual card holders are taken out
- No problems with combining modules
- Magnetic strips on reverse side to prevent modules from slipping
- Support rails made of anodised aluminium
- Comes complete with rail for mounting, fixing kit and card holders

How to use the system:

STEP 1

Choose the size T-card

T-cards come in 2 sizes, so choosing the size you want to use is your first decision.

STEP 2

Determine the number of slots

The planning system boards are assembled from vertical panels with slots for the T-Cards. The width of the planner panel will correspond with the width of the T-Cards you have chosen. You can choose from 3 panel heights and from 2 panel widths.

STEP 3

Determine the number of panels

Choose the number of panels based on how many days or tasks etc. your system requires.

Planning modules with support rails

■ Available in 2 widths and 3 lengths

70 mm wide:

T cards	Length	Ref.no.
For 32 T cards	640 mm	7-472100
For 45 T cards	830 mm	7-472200

Ref.no. 7-620500

INFORMATION

Legaline PROFESSIONAL floor system

The Legamaster floor display system opens up all manner of possible uses in places such as hotels and banks, acting as a practical room partition in offices or placed directly in work spaces or public areas.

The individual parts of the presentation screen system – the double sided boards, the stands, bases and coupling set – can be linked together quickly, in many different combinations and are continuously variable height adjustable.

Try different surfaces to add that extra slant; to create a room designed for communication.

Whiteboards for Legaline PROFESSIONAL

- High quality double sided whiteboards
- Scratch resistant, enamel steel board surface
- Particularly well suited for long term use
- Magnetic and suitable for writing on with dry wipe board markers
- Can be mounted vertically or horizontally
- Powder coated white (RAL 9016) aluminium frame
- Write on / dry wipe surface is guaranteed for 25 years when used in combination with Legamaster accessories
- Please order a coupling kit separately

Height x Width	Ref.no.
90 x 120 cm	7-640254
90 x 150 cm	7-640255
120 x 150 cm	7-640273

Pinboards for Legaline PROFESSIONAL

- High quality double sided pinboards
- Durable felt covering on both sides
- Particularly well suited for long term use
- Can be mounted vertically or horizontally
- Powder coated white (RAL 9016) aluminium frame
- Please order a coupling kit separately

Height x Width	Ref.no. Blue felt	Ref.no. Grey felt
90 x 120 cm	7-641554	7-641654
90 x 150 cm	7-641555	7-641655
120 x 150 cm	7-641573	7-641673

Recommended accessory:
Push-pins in assorted colours
Ref.no. 7-1451xx

Combine the different elements of the floor system to create a professional "communication wall" which suits your needs best!

Legaline PROFESSIONAL accessories

1- and 4-channel stands

- Suitable for all double-sided Legaline PROFESSIONAL boards
- Powder coated white (RAL 9016) aluminium

INFORMATION

EXPORAIL suspension system

EXPORAIL is the practical suspension system for hanging and moving about all kinds of pictures and posters in all standard formats.

Blending in nicely with any room, you can rearrange your suspension system over and over at the flick of a wrist. Whatever you want to focus on, the EXPORAIL suspension system always plays the perfect backdrop, with paper holders for adjusting your drawings and picture hooks to give your artwork a firm hold.

- Attractive hanging system for various wall decorations such as paintings, pictures, posters, drawings and signs
- Wall decorations can be arranged and re-positioned in a flexible way
- No need to drill holes for every separate wall decoration
- Quick and easy assembly
- Elegant and hardly visible system

Track

- Attractive way to hang pictures, posters, drawings and signs
- Powder coated white (RAL 9016) aluminium

Lenght	Ref.no.

 - 3 flipchart paper pads 20 sheets plain
 - set of 2 presentation markers TZ 48 (one of each colour: black, red)
 - set of 4 presentation markers TZ 41 (one of each colour: black, red, blue, green)
 - 4 magnets 30 mm
 - 1 free booklet with tips and tricks

Ref.no. 7-124900

ACCESSORIES

Flipchart paper

- 20-sheet paper pads
- Wood-free, white paper
- Pack of 5 pads
- Perforations enable individual sheets to be torn off easily
- Sheet size: 98 x 65 cm
- 80 gsm
- Chlorine-free, bleached paper

Sheet	Grid size	Ref.no.
Plain	–	7-156000
Grid	2.5 x 2.5 cm	7-156500

Paper roll for SILVERTEC mobile

- Paper roll for SILVERTEC mobile flipchart
- 35 m roll
- Wood-free, white paper
- 80 gsm
- Chlorine-free, bleached paper

Ref.no. 7-156900

Flipchart pad holder

- For flipchart paper pads
- Magnetic
- Adjustable to suit all major standard pad formats
- Aluminium
- H 7 x W 70 cm

Ref.no. 7-123000

Magic-Chart

- Ready to use solution for every spontaneous or planned meeting
- Creates an instant writing surface, even when a whiteboard or flipchart are not available
- Electrostatic foil easily sticks to almost any surface (wood, concrete, glass, wallpaper)
- Long lasting electrostatic product properties (up to 5 years!)
- No adhesive required, leaves no traces
- Sheets can be repositioned easily
- Presentation cards and notices will stick without help simply by smoothing them onto the foil
- Environmentally friendly: fully recyclable
- Roll width 60 cm, perforations every 80 cm, 25 sheets
- Including marker

Magic-Chart	Grid size	Ref.no.
	–	7-159100
	–	7-159200
	2.5 x 2.5 cm	7-159000

Produced in an environmentally friendly way and completely recyclable

Magic-Chart whiteboard

- Can be written on using Legamaster board markers and edding permanent markers
- Permanent markers guarantee a more intensive ink colour (longer drying time)
- Erasable when used in combination with Legamaster board markers
- Environmentally friendly: one sheet can be used up to 10 times!

Magic-Chart flipchart

- Grid size 2.5 x 2.5 cm
- Can be written on using Legamaster board markers and edding permanent markers

Magic-Chart blackboard

- Can be used:
 - to black out/darken windows
 - to darken a room in case bright sun light makes it difficult to give a beamer presentation
 - to create a chalk board effect; e.g. present a restaurant menu in an original way
- Can be written on using:
 - edding neon board markers
 - edding paint markers
- Highest electrostatic properties

Magic-Chart whiteboard

Fully white Magic-Chart foil (whiteboard effect), glossy look

Magic-Chart flipchart

Fully gridded Magic-Chart foil (flipchart effect)

Magic-Chart blackboard

Fully black Magic-Chart foil (black chalkboard effect)

Push-Pins

- Push-pins in assorted colours
- Easy to use
- 5 colours: black, red, blue, green and white

Pack of 50
Just add the right colour code to Ref.no.
Ref.no. 7-1451xx

Pack of 200, assorted
Ref.no. 7-145299

Moderation pins – Roundhead pins

- Extra thick 6 mm head for maximum grip
- Assorted pack of various colours
- Pack of 200
- Diam. 6 mm x L 15 mm

Ref.no. 7-241099

ACCESSORIES

Coloured magnets

- Available colours: black, red, blue, green, yellow and white
- Pack of 10
- Just add the right colour code to Ref.no.

Diameter	Magnetic strength	Ref.no.

Magnetic strips

- Self adhesive on one side
- Notes and pictures can be attached to the steel strip with magnets
- Set of 10

Size	Ref.no.
5 x 100 cm	7-185400

Self-adhesive magnetic tape

- Magnetic to all steel-based surfaces
- Turn objects into magnets simply by attaching a strip of tape
- Self-adhesive on one side
- Permanent magnetic on the other side
- Magnetic strength approx. 70 g/cm²
- 1.5 mm thickness
- 1 roll, brown

Size	Ref.no.
12.5 mm x 3 m	7-186100
19.0 mm x 3 m	7-186300
25.0 mm x 3 m	7-186500

Magnetic sheets

- Magnetic to all steel-based surfaces
- Can be cut into individual shapes and symbols
- For marking and labelling all kinds of objects, e.g. shelves, etc.
- Magnetic strength approx. 35 g/cm²
- Approx. 0.7 mm thickness
- 1 sheet, white

Size	Ref.no.
200 x 300 mm	7-189000

Magnetic labelling tape

- Magnetic to all steel-based surfaces
- Handy roll; various widths available
- Cut chosen length from the roll
- For marking and labelling all kinds of objects, e.g. shelves, etc.
- Magnetic strength approx. 32 g/cm²
- Approx. 0.6 mm thickness
- 1 roll, white

Size	Ref.no.
20 mm x 3 m	7-187200
30 mm x 3 m	7-187400
40 mm x 3 m	7-187500
50 mm x 3 m	7-187600

Magnetic blocks

- Use to attach boards to steel-system walls and partitions
- Self-adhesive, magnetic blocks
- For boards with a steel backing only
- Peel off the liner from the magnet and press the magnet firmly with the adhesive side to the backside of the board
- The magnetic part must be attached to the steel wall

- The blockmagnet is provided with a rubber coating which increases the magnetic force. This coating also prevents damage to the walls
- Place the magnets in a triangle on the backside of the board for a better grip
- Suitable for the following Legamaster boards: DYNAMIC, IMAGINE, PROFESSIONAL, PREMIUM^{PLUS}, PREMIUM, UNIVERSAL^{PLUS}
- Approx. 53 x 78 x 13 mm
- Number of magnets needed:
 - board size 60 x 90 cm = 4
 - board size 90 x 120 cm = 5
 - board size 90 x 180 cm = 7

Ref.no. 7-184000

Boards which can be mounted with magnetic blocks, can be identified through the following logo:

ACCESSORIES

 - 1 sheet each in yellow, white, green (18 labels per sheet)
 - 75 label holders (10 x 60 mm)
 - 12 sheets of labels: 2 sheets each in yellow, pink, red, green, blue and white (45 labels per sheet)

ACCESSORIES

Laser pointer LX 3

Laserpointer	Length	Laser class	Weight incl. batteries	Ref.no.
LX 3 green	15 cm	2	71 g	7-575600

Caution:

*Laser radiation -
Do not stare into beam!*

The eye is 20 times more sensitive to a green colour than a red colour. Therefore a green laser pointer is particularly suitable for use in a daylight situation or on a brightly lit screen. The green dot is very bright and piercing and has a very long range.

For use in an office, classroom or conference environment.

- Best laser pointer tool for high brightness screens and big display presentations
- Laser pointer with a green dot, Ø 1.4 cm
- By pushing the button the green laser dot is activated
- Green laser beam; high visibility (twenty times higher than a red laser beam)
- Silver metal casing
- Practical pen-clip
- Soft structured grip zone
- Range: 200 m
- Laser class 2, power < 1 mW
- CE-approved
- Certified to standard EN 60825-1
- Comes complete with case, 2 AAA batteries and a user manual

Laser pointer LX 1, LX 2 and LX 4

Laserpointer	Length	Laser class	Weight incl. batteries	Ref.no.
LX 1	10 cm	2	60 g	7-575300
LX 2	14 cm	2	56 g	7-575500
LX 4	14 cm	2	54 g	7-575700

- Power: <1 mW
- Red laser dot, diameter approx. 4 mm
- Certified to standard EN 60825-1
- Range: 100 m
- CE tested
- Comes complete with case and batteries

Laserpointer LX 1:

- Black metal casing
- Green on / off button
- Handy size
- Battery: (N) battery SUM5R1

Laserpointer LX 2:

- Silver metal casing
- Red on / off button
- Sturdy
- Battery: (AAA) battery SUM4R03

Laserpointer LX 4:

- Silver metal casing
- Red on / off button
- Red laser dot: can be turned into an arrow by twisting the laser head
- Battery: (AAA) battery SUM4R03

Small telescopic pointer

- Pointer with integrated ballpoint
- Chrome-plated
- 13 cm long
- Extends to 62.5 cm
- Cash & carry packaging
